29 February 2012

The Hon Martin Dixon M.P.
Minister for Education
2 Treasury Place
Melbourne Victoria 3002

Dear Minister,

It is ten months since Tom Rowan and I met with you regarding the paucity of high school choices for children in the Richmond area, particularly for boys.

In your correspondence to the Richmond High School Choices (RHSC) group of May 2011, you expressed your intention to request a review of 'the provision of government school education in the City of Yarra'.

I would appreciate an update on the status of any relevant reviews currently underway in the Northern or Eastern Metro Regions, and as previously advised, RHSC would welcome and embrace the opportunity to participate in a collaborative approach to the discussion of medium and longer term options.

Furthermore, I understand that parliamentary questions have been asked regarding the status of a government-controlled site in Cremorne that has previously been used by Kangan TAFE. Could you please advise me of the status of any anticipated sale of land on the associated sites.

I look forward to hearing from you.

Yours sincerely,

Justin Naylor
Richmond High School Choices
